

NMBS EXHIBITION 2025

New Products Launching at 2025 Exhibition

Stand Number	Company	New Product Detail
217	Henry Squire & Sons	Squire Stronghold Stainless Steel Range
118	Smiths Briten	New Metrowall shower wall panels from Smiths Briten. 100% waterproof range of 2400x1200mm paneling which is available in tonge & groove as well.
2A	Merchants Transport Ltd	After becoming new suppliers for NMBS at the end of 2024, Merchants Transports will be displaying our FIRST EVER exhibition at this year's NMBS show. Come and speak to our friendly team, view a screen show of our fleet including BRAND NEW vehicles added for 2025 and see our vast amount of HEAVY GOODS we can deliver across the UK. Visit us at STAND 2A for some tasty 'truckers' treats and learn more about our services and how we can help with your haulage requirements.
150	Fernco	Fernco Floodbags: are absorbent bags filled with a super absorbent polymer (SAP), for protecting properties against flooding. This ideal solution is easy to store and is a more effective alternative to traditional sandbags that often fall short of expectations. Fernco Anti-Flood Air Bricks: are innovatively designed to be a 2-in-1 solution for flood protection and home ventilation. Equipped with a self-sealing valve which automatically seals and closes the vent when flood water approaches. Fernco Anti-Flood Air Brick Covers: are a quick, efficient, and reliable solution that ensures flood protection for your home. The cover provides a watertight seal over low-level air bricks to prevent flood water from entering the property.
305	EBP Building Products Ltd	Pave-A-Drain AluTop - Decorative threshold drainage channel complete with a range of accessories to suit most domestic and landscaping projects that require a stylish surface drainage system.
99	Polycon	At this year's NMBS Exhibition, we are excited to showcase some of our top-performing urban drainage solutions, including our Lite Aqua Range and Self 100 Pro SMC. With a diverse selection of materials, load classes, and multiple grating styles available, we are confident that we have the right solution for all your urban and domestic civil projects. Our Lite Aqua Range offers a lightweight yet robust channel drainage system, designed for easy handling and installation without compromising durability. Manufactured using high-quality polypropylene, these channels provide excellent resistance to chemicals, making them ideal for both residential and light commercial applications. The C250 Lite Aqua with Galvanised Edge Rail is the latest addition to this range, specifically engineered to withstand heavier loads while maintaining the lightweight advantages of its predecessors. Perfect for driveways, pedestrian areas, and small commercial spaces, this innovative solution ensures long-lasting performance while remaining cost-effective and easy to install. Our Self 100 Pro SMC channels, made from Sheet Moulding Compound (SMC), offer superior strength, impact resistance, and a high load-bearing capacity. The material's non-porous properties prevent water absorption, reducing the risk of freeze-thaw damage and extending the lifespan of the system. Combined with a range of grating options, from cast iron to stainless steel, these gratings paired with the SMC base provide flexibility to meet both aesthetic and functional project requirements. Visit us at the NMBS Exhibition to explore these solutions firsthand and discover how our cutting-edge drainage systems can enhance your next project. Our team will be on hand to offer expert advice and help you find the perfect drainage solution for your needs.
160	ACO Technologies	Come and see four new gratings in the ACO Complete the Look range of elegant gratings on Stand 160. Now available with unlidDED HexDrain and RainDrain channels.
324	Precon Products Ltd	Dualcast UPVC screed rails The Smarter, Stronger, Greener Choice! Dualcast® UPVC Screed Rails offer a lightweight, durable, and recycled alternative to steel and timber formwork. No removal needed, just cut to size, anchor, and pour!
92	Klargester	BioTec+ The BioTec+ is the newest addition to our sewage treatment plant portfolio. Our most economically priced plant in the range offers customers all the benefits of a Klargester product without the price tag. With flexible installation options to suit a variety of domestic sites, low visual footprint and suitable for shallow dig applications, the Klargester BioTec+ is a cost-efficient choice for your domestic wastewater treatment solution.
179	LPD Doors	A contemporary twist on a classic design, the Blonde Oak Mexicano Collection offers beautifully crafted internal doors with a 5-panel vertical layout. With a light, neutral tone, these doors provide a modern alternative to traditional oak while preserving the natural grain's warmth and character. The collection includes curved and glazed options, allowing for versatile styling to complement any interior. Perfect for those seeking a balance of timeless charm and contemporary elegance.

Stand Number	Company	New Product Detail
49	Tucson Pumps	Tucson Pumps recently launched 3 bar shower pumps as part of their Equinox range of brass-bodied shower pumps. The newly launched shower pump slots in nicely to the existing Equinox range, which features 2 & 4 bar universal and positive head twin impeller shower pumps. With installers front of mind, Tucson recently announced enhancements to the Equinox range, which was driven by installer feedback. This included a recent shift to brass finish (from chrome-plated finish), and stainless steel flexible hoses with compression nut and lever isolating valves for a risk-free fit. With everything needed in 1 box (including an anti-vibration mat), and WRAS approval - Equinox Shower Pumps are designed with installers in mind.
65	Henco	The Henco Water Monitoring and Management system. Consisting of smart monitoring remote sensors and smart monitoring valves that monitor - Water usage - Water temperature - Water pressure - Ambient temperature - Humidity Levels. Each sensor is wifi linked to the Henco app/desktop, identifying current issues including leaks and increased/decreased water pressure levels. Notifications sent to tenants and registered social landlords and when linked to the Henco secure smart valve will close and stop leaks reducing water usage and damage.
186	Wavin	Hep2o Keyless - With a 40 year pedigree and an enviable reputation for reliability, these are exciting times for Hep2O plastic push-fit plumbing - a name your customers know and love. As a result of extensive product development and market research, the Wavin Hep2O Keyless option has finally arrived, which means your customers now have a choice of Hep2O Key or Hep2O Keyless systems. The new Keyless system utilises the tried and tested Wavin Hep2O In4Sure technology for a secure joint every time and comes complete with the same 50 year guarantee.
